

Cyclone locking pulley, alloy

P201

Heavy-duty hauling pulley with locking cam

Features:

- 50mm, low friction integrated pulley wheel
- Unique 'X Cam'[™] locking mechanism
- Lightweight alloy construction
- 100kg Working load

Specifically designed for technicians to aid hauling of equipment and materials.

X-cam has a more advanced tooth design than traditional cams and is more suitable for industrial applications as it does not pluck the rope, so reducing rate of rope wear.

- Does not jam, even against knots
- Provides high degree of grip on ropes of varying condition including after rupture of the sheath

NB: Not certified for lifting persons.

Option:

P20 - Stainless steel version available for increased corrosion resistance.

The Cyclone is available as part of the WTG lifting kit. The kit includes all the components required to lift small loads.

NB: specifications and colour may change without notice.

Specifications:

Size: 10.5mm - 11mm rope

EN Test Mass: n/a

Loading: 100 kg SWL

Conformity: 2006/42/EC

Materials: Alloy body, stainless cam, nylon wheel

Weight (kg): 0.34

Industries: Renewables, construction, telecoms
